

A-LEAF TECKNOWCON PVT. LTD.

A-LEAF TECKNOWCON EGYPT

Who We Are

International Head Quarter- Denmark

A-LEAF

Specialized staffing & Management Consulting

WE ARE A GROUP OF DANISH, INDIAN & EGYPTIAN COMPANIES

A-LEAF

A-LEAF's main focus is towards steel foundations, towers, related steel structures and WTG inspection within the Wind Industry.

At A-LEAF our strength lies in providing you with solid a base that supports your business to reach new standards.

A-LEAF provides high-skilled specialists with vast knowledge of their respective areas.

A-LEAF Specialized Consulting, the ultimate partner for your business!

TECKNOWCON SERVICES & A-LEAF TECKNOWCON (INDIA & EGYPT)

The range of services provided is as listed below

- EPC Projects in Power & Utility Sector. Specially for renewable energy sector.
- Product, Facility & supplier development in renewable energy (e.g. towers, main frames, stator, rotor parts, foundations, fasteners etc.) Import & Export to & from India
- QA, QC for Wind turbine components, Oil & Gas, Pressure vessels, Piping etc
- Manufacturing Engineering & Support services in Heavy engineering (Welding, Fabrication, machining, finishing). Complete facility & Layout development & services till first product out
- Testing, NDT Management & Training Services (Instruments, Procedures & Personnel) & personnel training. Testing & NDT Services
- Welding Coordination, Welding Process developments, "Plant & Machinery, WPS, & Personnel" Qualifications, Training of welding personnel. Welding & Related Services
- Product Certifications, Manufacturing & Quality management Systems Consulting (ISO 3834, EN 15085, EN 1090, PED, AD, ISO 50001, CE etc.). Certification Services
- CE Mark consulting for mechanical & Electro Mechanical Components

K.T.O. SERVICES & A-LEAF TECKNOWCON (INDIA & EGYPT)

Company in Ukraine since 1999, and we have several kind of work.and we start our new work at Egypt 2011 with Egypt Anode factory as Ein-Sokhna as subcontractor with NFC China .

- Specialised in the rental and maintenance of tower cranes
- official agent for ZCJJ Tower Crane in Egypt since 2015.
- Trading heavy equipment's.
- specialised on steel structure installation.
- modification and fabrication steel for our needs.
- we own our equipment's from a mobile cranes and tower cranes.
- We have implemented several projects in Egypt and Ukraine.
- Specialists in international transport, mobilisation loading and unloading heavy equipment.
- And specialists in thermal insulation for furnaces and chimneys of factories and all kinds of pipe work

Renewable Energy Services

Our other specialization is wind turbines, solar power & other renewable energy sources. Our team members have been experienced in Wind turbine manufacturing industry, Solar Power Projects & Solar Equipments from infant stages of development of renewable energy industry.

This gives an advantage to our customers. We can develop & provide time tested solutions.

Services Offered:

- Liaisoning & Technology transfer services
- Manufacturing support for complex wind turbine components
- Manufacturing support for wind turbine towers
- Sourcing of components with economics in control
- Product Certifications & Approvals Like: CE, C-wet, Design Type Certificate Inclusion
- Developing alternative suppliers for critical components
- Shop Approvals for manufacturing facilities like: ISO 3834
- System certification support services for ISO 9001, ISO 14001, OHSAS 18001
- ISO 27001 & ISO 50001
- Solar Park Development Consulting for Roof Top & Mega Watt Projects
- Wind Solar Hybrid Systems Development Support
- Installation & commissioning technical support
- Wind turbine project third party audits

We Provide single window solutions & economically friendly solution for our customers

Wind Tower, Line Pipe, Pressure Vessels, Kiln & Mill Shells Mfg. Consultancy

Our specialization in Heavy Engineering industry comes from core experience & expertise of our team. We have high level of focus in sustainable energy development.

Our team has built in capabilities for:

- Plant and layout development for Wind Tower Manufacturing facility
- Plant and layout development for Pressure Vessel Manufacturing facility
- Plant and layout development for Similar Products like; Cement Mill & kiln Shells

Services Offered:

- Plant Design & Layout Development
- Selection of machinery suitable to product
- Installation & commissioning support
- Training of work force
- Proto development
- Complete documentation development
- Support till plant reaches optimum designed capacity
- Assistance for International client approvals
- Support services for shop certifications

Solar EPC Projects

We are aware that today we have power deficit and for government it is becoming difficult to meet the demand of the customer, while demand is increasing day by day.

Solar energy is not only sustainable, it is renewable and this means that we will never run out of it. It is with High efficiency, Eco-friendly, Clean and Renewable and is available in ample in our Country almost over 300 days in a year.

A-Leaf Tecknowcon provides Hi End and affordable solutions for Solar Energy projects. The Range of Services cover

- Mega Size Solar Power Projects
- Roof Top Solar Projects
- Solar Generators
- Solar Pumps
- Street Lights
- Cold Storage

Product & Supplier Development Services

Product development team has capabilities to validate the new products through manufacturing engineering tools, quality assurance & control & product certifications to comply international standards & regulations.

Services Offered:

- Manufacturing Process plan development
- Quality Planning & Technique Development
- Tooling and Fixtures Design & Development Supports
- Development of bill of materials
- Optimization of manufacturing & inspections processes
- Sourcing of components
- Inspections during stages of manufacture
- Quality documentation
- Packing & Shipment inspections
- PDCA for efficient series production

We understand that, developing a product requires,

- Precise coordination of many different agencies
- Complete understanding of tasks and functions
- Appropriate & clear documentation

What Make's us Different:

- Our experienced, highly skilled technical team,
- Our systematic approach
- Our time tested proven methods

We Provide single window solutions & enhanced profit margins for our customers

Welding Technology Consultancy

Our professional Welding Engineers are Dedicated to Provide Welding Expertise Services. By Adding Value in manufacturing processes, we deliver Competitive output to heavy engineering industry. We assist Industries to Enhance Productivity, Enhance Product Quality and add Cost-Effectiveness. We have core competence on Materials with specialty on alloyed and unalloyed steel. We provide Innovative Welding Processes, Product Reviews and Recommendations on Alternative solutions to Heavy Engineering Industry.

The Key expertise include

Welding Engineering, Weldability, Materials, Selection of Welding Consumables, Codes and Standards, Welding Procedures Developments (WPS),

Working with us gives added advantages like

- Short Reaction Time,
- Integrated Solutions
- One stop solution

The Key Work Areas

- Submerged Arc Welding using tandem and multi-head Power sources
- GMAW & FCAW Welding technology and MIG _ MAG Tandem Technique
- Robotic Spot Welding
- Automated Laser Beam Welding
- GTAW Welding of Stainless, High Alloy steels and Nickel Alloys
- Specialized welding requirements for difficult to weld steels
- Repair & maintenance Welding Consulting

System, Product & Shop Certification Consulting

The team of Technocon posses lead auditors with skills catering to 5 prominent segments of engineering industry. For this purpose additionally, technocon is associated with well-known service providers in western and south India

Current capabilities allow Technocon to provide efficient and successful consulting for:

- Quality Management System (QMS) ISO 9001
- Environmental Management System (EMS) ISO 14001
- Occupational Health & Safety Management System (OHS) OHSAS 18001
- Information Security Management System (ISMS) ISO 27001
- ISO:50001 Energy Management System implementation

The team is equipped with experience knowledge to support our customers in product certifications as well as manufacturing facility certifications. We also provide consultancy for implementation of integration management systems.

The product certification support services include

- CE Marking consultancy

The shop approval consultancy Services include

- ISO 3834 system implementation
- EN 15085 system implementation
- ASME pressure vessel stamps
- IBR approval consultancy
- European Pressure Vessel Directives consulting

Working with us will be knowledge & profitability enhancement for our customers

Automated Car Parking Solution

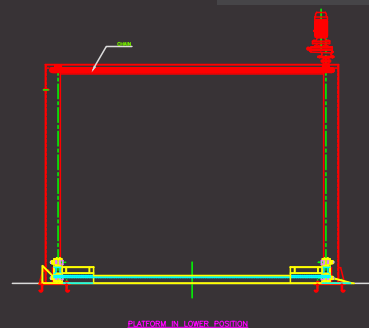

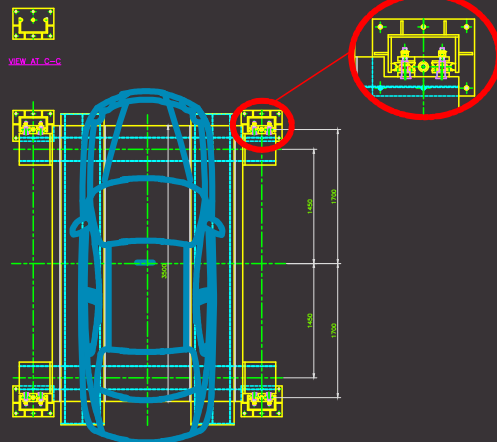

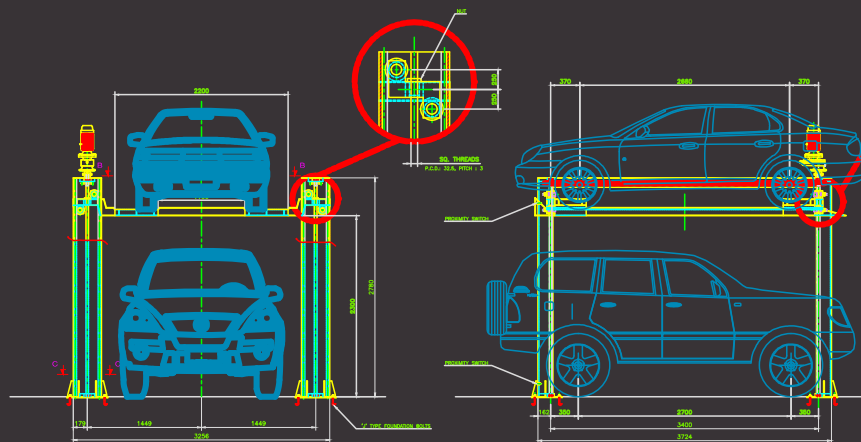

Being core engineering professionals, experience in Design & Development of engineering equipment(s) there is added value. The current activities in hand include,

- Highly skilled engineers of the automated car parking systems & Control parts
- Worldwide leader in the industry
- More than 500 projects worldwide
- Using Quality Products
- Exceptional Workmanship & Installation
- Superior Service by Highly Trained Technicians

Solutions available in our range of supply are as follows :

- Tower System
- Cart System
- Stacker System
- Multi-layer System
- Puzzle System
- Rotary System
- Chess Type

We are associated with Korean, European companies for end to end solutions . Our services included, design engineering, manufacturing, supply, installation, commissioning & after sales service.

SPECIFICATION :

- A) CAR SIZE :-
- 1) LENGTH : 4950 mm
 - 2) WIDTH : 2000 (WITH MIRROR 2200) mm
 - 3) HEIGHT : 2200 mm
 - 4) WEIGHT : 2500 Kg. max.
- B) MECHANISM :-
- 1) NUT & SCREW TYPE (SELF HOLDING EVEN IF POWER FAILS)
 - 2) ROLLER GUIDE FOR SYNCHRONISED MOTION.
 - 3) GEAR MOTOR WITH HANDLEVER.
 - 4) LIFTING MOTOR - 3.7 Kw
 - 5) LIFTING SPEED - 2.5 M/min.
 - 6) POWER - 415 V \pm 10% , 50 Hz \pm 5%
 - 7) TOTAL LIFT - 2500 mm
 - 8) STOPPAGE AT BOTTOM ENDS - BY PROXIMITY SWITCH.
 - 9) MANUAL OVERRIDE - BY HANDLEVER AT MOTOR SHAFT END, IN CASE OF POWER FAILURE.
- C) NO. OF CARS : 2 NOS. (1 ON GROUND, 1 NO. LIFTED)

Testing, NDT, Quality & Professional Services Inspection Services

Technocon provides a full range of Inspection Services including

- Quality Planning
- Inspection of materials
- Monitoring of Qualifications
- Weld plans
- Fit up Inspections
- Welding Inspections
- Workmanship
- Non-Destructive Testing
- Production testing
- Mechanical Testing
- Metallurgical Testing
- Machining Inspections
- Assembly Inspections
- Dimensional Inspections
- Ensure compliance to specifications and codes
- Quality Documentations

NDT Engineer - ASNT NDT Level III in UT, VT, RT, MT, PT. Certificate N0 105132

- The NDT Engineer - External
- NDT technical representative

We have an extensive experience of steel from which you can benefit when designing and engineering structures for the wind industry.

By collaborating with our specialists early in the design phase, you can ensure that your design meets the specifications, requirements and demands for steel foundations in harsh environments. You are able to catch possible errors early in each project phase thus minimizing the risk of expensive delays and ensuring the highest quality.

In the design and engineering phase, we support you with:

- QA review of drawings
- Top down 3D construction analysis
- Secondary steel workshop drawings according to industry standards
- CREO – PRO-Eng. Inventor Prof.

Furthermore, we have knowledge and expertise within:

- Bolt connections
- Welding
- Lifting tools
- Interface control
- Interface for electrical installations

Failure Analysis Consulting

Failure analysis helps our customers to manage and resolve material and product failure problems.

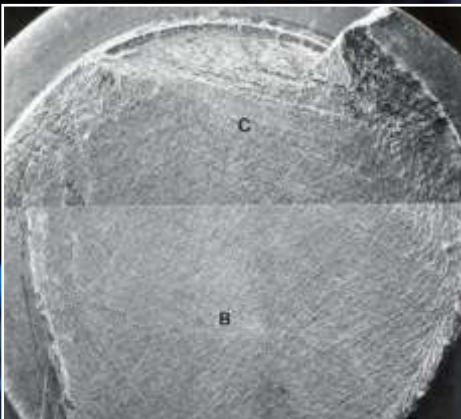

Our failure analysis team work to determine the Root cause of a failure and provide the customer with insight for solving the problem.

We deal with failure investigation, Root cause analysis, value engineering, and corrective preventive actions for a wide range of engineering products and materials.

Our expertise includes

- Visual testing
- Non-destructive testing
- Mechanical testing monitoring
- Metallurgical testing
- Support for fracture analysis using Scanning electron Microscopy
- Support for X-ray Diffraction analysis
- Complete root cause analysis solutions
- Suggestions for corrective and preventive measures
- Suggestions for solutions to overcome the failures

We are associated with research laboratories in western part of India for the failure analysis services

Chartered Engineer & Technical Training Services

Our experienced team has certified individuals with international qualifications. We provide technical training services in following areas of engineering

Welding & Technology

- Welding & Technology development training
- Welding inspector training
- Welding engineer training
- Welding co-ordinator services
- Hands on skill development for welding

Destructive & NDE Testing

- Non-destructive testing level 1,2 &3 training & development in
- Visual Testing
- Penetrant Testing
- Magnetic Particle Testing
- Ultrasonic Testing
- Radiographic film interpretation

Management Systems

- Internal auditing for ISO:9001, ISO:14001, OHSAS:18001, ISO:27001, ISO:50001
- System training for ISO:9001, ISO:14001, OHSAS:18001, ISO:27001, ISO:50001
- Complete documentation and reporting forms development & training

Chartered Engineer Services

- Production capacity validation
- Raw material consumption certification
- Material specification validation
- Machine fitness certificate
- Machine erection certificate
- Work completion certificate
- All types of Chartered engineer certificates as required for government tenders
- Third party structural / mechanical design review and approvals
- Review of equipment / vessels as per ASME Sec VIII Div-1 / 2 / PED / European standards
- Engineering consulting for refinery, petrochemical, Oil & gas standards like API, NACE, ASME, TEMA & European standards
- Certification of UDS (User design specification) as per ASME Sec VIII Div-2
- Chartered Engineer's (CE Certification) for Second Hand Plant & Machinery
- Support Services for insurance and damage claims
- Wind turbine/ Solar Park site related certifications
- Bill of Material (BOM) Certification

Welding Engineer - ISO 14731

- Welding coordinator
- Welding Engineer Services
- Welding Inspector Services

Oil & GAS Services

Inspection

We provide workforce for oil and gas industry in the field of inspection, maintenance and manufacturing.

Our resources are not only well trained and skillful but also committed, diligent and dynamic. Their expertise, experience and efficiency makes them more productive, time-saving and thereby helps businesses to progress faster. MegaTech has been able to put together most valued and sought after professionals due to their own individual experiences in the rope access sectors over the years. MegaTech has good source of contacts to put together the best team forward for you in any part of the world.

Maintenance

We provide maintenance workforce for oil and gas industry with an aim to provide world class resources.

Manufacturing

We specialize in sourcing end to end oil and gas manpower solutions for offshore & onshore manufacturing.

Marine & Offshore Personnel

We offer services in providing manpower solutions for marine and offshore personnel.

Associates

Megatech oil and gas consultancy

RIG Repairs International
www.rigrepairsinternational.com

Global Sourcing Services

Our Strategic Sourcing consulting services include

- International Trading
- International Supplier Development
- Bench marking to industry standards
- Product development,
- Manufacturing process planning & development,
- Contracting and negotiations with cost optimization,
- Inspection & certification of product at supplier end
- Procurement process improvement support
- Technical support for series manufacturing

Strategic sourcing is a team effort. We associate with our clients for value creation.

Represents

1. Tongyu Heavy Industry Co. Ltd., Yucheng, Shandong, China -
2. Shenzhen Hongjijia Science and Technology Co., Ltd. Shenzhen, Guangdong Province, China - www.xinhongda88.com
3. V2G A I S HK Ltd, Hong Kong

Expert Manpower Sourcing

Our exposure to worldwide network of manufacturers in engineering sector leverages us with an great deal of experience and awareness of technological developments, cost effectiveness etc.

We undertake complete technological, project management, process development and expert manpower contracting services.

- Execution of project
- Develop & stabilize process
- Lean Six Sigma Manufacturing
- Process Engineering
- Project Management & Specialist.
- Contract Management.
- QA-QC Management.
- HSE Management.
- Tender Management.
- Welding Engineers & Metalurgical.
- FROSIO & NACE.
- Start-up and Optimizing of factories.
- Production support & in progress inspections.
- QC Inspections & Product Inspections
- Supplier Evaluation.

We provide economically viable solutions to our costumers

Project Management Consultancy

1. Time Management
2. Cost Management
3. Communication & Co-Ordination
4. CONTRACT & PROCUREMENT MANAGEMENT

- Tender documentation
- Pre-qualification of bidders
- Bid Management & award process
- Daily Site Supervision
- Quality Assurance and Control
- Quantity Surveying, measurement and Running bills
- EHS management
- Completion Management
- Project Close Out and Defects Liability Period
- Project Managers
- Welding Eng. (IWE)
- Metallurgical
- Cable, SCADA/Network Engineers & QA-QC Inspectors
- HVAC, Design, Eng & Project Management.
- Solid works 3D CAD
- CREO Eng
- Frosio inspectors & NACE
- Measuring Specialists (Flatness, tilt, parallelism, shaft & belt alignment, geometrical, quadratic & ovality).

Bachelor of Engineering in Electrical.
Diploma in Procurement Management.
Director Sales & Marketing
ASNT NDT Level II UT, RT, & PT Certified

PEDER LINDBERG
International Co-ordinator

Mech. Engineer with 21years exp.
Wind Power, Oil & Gas
(offshore and Subsea) International Project
Management, QA & QC,
Work shop process, Hydraulic-system
Powertrain design.
Lead Auditor for QMS ISO 9001-2015

P.S. DILIPKUMAR - CTO

Renewable Energy professional
Worked in R & D (hydro turbines),
design engineering, project management
& commissioning large pumps, wind,
solar farms, O & M, infrastructure
development

MAHESHKUMAR MANE
Head Welding & QAQC

Mechanical Engineer
International Welding Engineer (IWE)
Professional with experience in welding,
NDT & QAQC in heavy engg.
as well as Wind Turbine

B.W. AMBULKAR
Head Electrical & Projects

B.E.(Elect), MBA 35 yrs Experience in Engg
maintenance, operations in Textile,
Ferromanage and steel plant.
Thorough in maintenance aspects,
electrical designing & safety standards

Ashwin Bhoslay
Head Business Development

Diploma in Industrial Electronics,
27 yrs of experience in
Telecom and Security.
Director in SPARKLE ENTERPRISES.

JAYANT KELKAR
Head Management Systems

Mechanical Engineer since 1967 &
master in management science from
Pune University. Quality assurance &
management systems professional
over 46 years of career.

SATISH BHAGVAT
Head Import - Export

Master of Commerce
Diploma in Marketing Management
24 years of experience in MNC
Sound Knowledge in Import-Export

MOHD. MUZAMMIL HUSSAIN
Quality Enggineer

Bachelor of Mechanical Engg.
AWS Certified Welding Inspector
ASNT NDT Level II
Wind, Oil & Gas Industry Professional

HIMAMSHU THAKER
Board Member & Advisor

Life Member : IIM, IIF, ISNDT, IIW, IE
Executive Committee Member, Vadodara
Chapter-IIM, IIW, IIF Vice Chairman, IIM,
IIW - Gujarat Chapters, Member
of the Gujarat Executive Council (WR) of
Confederation of Indian Industry (CII)

MUGDHA KULKARNI
Board Member and advisor

D.M.E, AWS- CWI, 17+ years experience
in production, 10 years experience
in welding inspection.

VIKAS DUSANE
Board Member and advisor

BE Mechanical, 3 decades experience in
Manufacturing Operations, Oilfield Tools
Repair & Maintenance, Production,
Planning, Project & Inventory
Management, Quality Assurance &
Control, Resource Management,
Fabrication & Welding Operations

K.G. PANDITHAN
Board Member & Advisor

International Welding Engineer
Welding expert with international
background. Known for his extraordinary
contributions to world of welding,
